CAREER OBJECTIVE

Front-end developer focused on building responsive, modern, and user-friendly web applications using JavaScript, TypeScript, React.js, and Next.js. Seeking an entry-level developer opportunity where I can apply my technical skills, solve real-world problems, learn from an experienced team, and contribute to high-quality web products.

KEY PROJECTS

FitLog

TypeScript • React • Next.js

Workout library and planning app for browsing exercises, viewing details, saving exercises, organizing daily workouts, and tracking planned workout duration.

Personal Task Manager

React • TypeScript

Application to manage, organize, and keep track of daily work efficiently and improve overall productivity.

CinePulse

JavaScript • React • TVMaze API

Fully responsive TV show portal for finding favorite shows with interactive component states and seamless data fetching.

Geometry Genius

Vanilla JavaScript • DOM

Interactive web application for dynamic area and volume calculations of various geometric shapes.

TECHNICAL SKILLS

LANGUAGES

JavaScript TypeScript HTML5
CSS3

FRAMEWORKS & LIBRARIES

React.js Next.js TailwindCSS
better-auth

DATABASE

MongoDB

DEVELOPMENT & TOOLS

Git GitHub VS Code

LANGUAGES

Bangla Native / Fluent English Fluent

"Combining a strong mathematical mindset with modern front-end expertise – eager to learn, adapt quickly, and build clean, high-performing web applications for your team."
